Department of Zoology

CHICAGO, ILLINOIS

Dear Mr Lederberg: -

I sent you a note the other day and stated that we would be very glad to have you talk to our Genetics Club. I indicated that I was sorry that we did not have a fund for such visits. I have discussed the matter with several individuals especially members of the Bacteriology Dept. and we now can offer you your expenses.

We should like to have the meeting soon but not from 9 to 12 of May when several will be away to attend a meeting elsewhere. Let me know the convenient time for you. Plan to spend a whole day if you can. We should be happy if Mrs Lederberg could come along.

Cordially yours,

Herley H. Strandskov
